

Infrastructure Engineer

(m/f/d)

Become part of your new much. Consulting team in Lisbon and help us developing the best IT solutions for our customers.

We are much. Consulting a fast-growing start-up from Munich with a focus on business IT & ERP systems. You seek professionalism but without the usual rigid structures? Great, that is exactly what we are about!

Become a part of much. Consulting by starting out at our vibrant talent hub in Lisbon!

Our offer

- **Quick career growth:** with our defined career levels you have the opportunity for a steep career development
- **Real impact:** with us, nothing is set in stone. You are free to shape company processes and contribute your own idea
- **Start-up culture combined with professionalism:** look forward to short, flexible decision-making paths and lean, orderly processes
- **A motivated, high-performing team:** work with like-minded professionals with great expertise and passion for what they do
- **Flexible working hours:** we believe in a true work-life balance without the industry-typical 80-hour weeks
- **Build your own benefit package:** Choose your package from health insurance, school support, discount cards and much more

Your profile

- Manage Linux server instances with customer projects (with Odoos services)
- Design and implement automatization of development workflows (CI/CD)
- Build tools and standards, to scale the development team
- Create images & recipes for Odoos services
- Troubleshoot and resolve low-level bugs and issues
- Write down documentation, best practices recommendations, tutorials, sample code, and technical presentations adapting to different levels of key business and technical stakeholders

Your tasks

- Background in computer science or informatics
- Experience with Linux systems, Docker, Kubernetes (Orchestration), Ansible and AWS
- Programming skills in dynamic languages like Python or similar and SQL
- Knowledge in CI/CD practices and tools
- You use GitHub and GitLab in your daily work live
- Fluency in English
