

Infrastructure Engineer (m/f/d)

Become part of your new much. Consulting team in sunny Lisbon.

Become part of your new much. Consulting team in Lisbon and ensure that our projects run smoothly. We are much. Consulting, a global network of driven experts that works every day, hand-in-hand to ensure our vision: “**No more boring tasks**”

Our team is very international (12 nationalities, 15 languages spoken) with a highly value-driven workstyle to always achieve the best results.

Our offer

- **Innovative, cutting-edge projects:** We develop leading Odoo solutions for various industries such as E-Commerce, Medtech, SaaS and more
- **Agile culture combined with professionalism:** look forward to short, flexible decision-making paths and lean, orderly processes
- **Flexible working hours and hybrid work:** Organize your workday the way you like it
- **Competitive salary:** you'll receive a salary ranging between €35.000 and €40.000 / year (gross excl. bonus)
- **Top Health Insurance:** as we believe an healthy employee is an happy employee

Your tasks

- Manage Linux server instances with customer projects (with Odoo services)
- Design and implement automatization of development workflows (CI/CD)
- By building tools and standards, you develop a way to scale the development team
- Create images and recipes for Odoo services
- Troubleshoot and resolve low-level bugs and issues
- Write down documentation, best practices recommendations, tutorials, sample code, and technical presentations adapting to different levels of key business and technical stakeholders

Your profile

- Background in computer science or informatics
- Experience with Linux systems, Docker, Kubernetes (Orchestration), Ansible and AWS
- Programming skills in dynamic languages like Python or similar and SQL
- Knowledge in CI/CD practices and tools
- You use GitHub and GitLab in your daily work live
- Fluency in English and one other European language
