Remote Senior Odoo Developer (m/f/d)

You want to work as a remote developer with the prospect of coming to Germany or Portugal after a successful freelance cooperation?

We are a boutique consultancy in the heart of Munich and in sunny Lisbon with a focus on business IT & ERP systems.

Our customers are fast-growing, international start-ups and medium-sized companies. We are ambitious, team-oriented and passionate about our work.

We are looking for a dedicated full time Odoo developer to support our Team in ERP development.

Our offer

- The chance to come to Portugal after your freelance work
- Support with visa process, bureaucracy & relocation
- Inclusion in our motivated & high-performing international team through daily meetings
- Challenging projects and autonomy
- Flexible working hours
- Above-average remuneration

Your profile

- Studies in computer engineering or similar
- 5 or more years experience in Odoo and QWeb
- Ninja programming skills in Python
- Adaptive, quick working method & high commitment style
- Independent working style
- English speaking team player

Your tasks

- Evolve and maintain custom and open source used modules in our ERP System Odoo
- Assist our consultants analysing customer needs to design and build the best fit IT solutions
- Development, maintenance, technical fixing & management of our systems
